

## Technology Enhanced Learning Showcase

Thursday 07 July 2011

9am - 1.30pm

T-pod, Park Campus and CTC, Avenue Campus

A buffet lunch will be provided. For catering purposes please book.

### 9am - Angela Ashpole - Xerte

Xerte may be used as a tool to create interactive content and material which may be used within NILE or just on general webpages. Angela will talk about her experiences in using this tool for international students

### 10am - Di Stoncel - Panopto

Lecture Capture is now available throughout the University and Di will explain her early experiences in using this tool

### 11am - Kardi Somerfield - Sticky Sites

Kardi will talk about her work in creating more engaging NILE modules and the impact on the student experience

### 12 noon - Richard Broughton - The Psychology of Successful SaGE Implementation

Richard will discuss the Psychology division's experiences in widespread implementation of SaGE across UG and PG modules (including over 120 dissertations) and the importance of positioning SaGE as one component of a more comprehensive use of NILE's grade recording features that will make life easier for MCs and all tutors.

### 1pm - Veronica Ball - Flip Cams

It has now become very easy to capture video material using webcams and Veronica will talk about her experiences of using these devices within a specific environment.

From CTC in Avenue:

### 9:30 - Richard Hollingum - The Apple of my Eye: Using the iPad in the teaching of Journalism

This session will demonstrate a number of apps for the iPad that will allow the delivery of lectures, support in broadcast subjects and portable access to your desk top. The session will also illustrate some of the new ways of delivering the news.

This session will be video conferenced across to the T-pod

Each session will be 15 - 20 minutes long with up to 10 minutes of questions.

As well as the sessions, the IS Learning Technologists will be available in the T-pod to discuss any Technology Enhanced Learning issues you may have.

You can register your interest in attending via - <http://www.eventbrite.com/event/1759108541>
